## Unacceptable Materials

Alkaline batteries - dispose of with regular trash.  
Asbestos - look in yellow pages for a licensed contractor.  
Construction waste (asbestos shingles, railroad ties, etc.)  
CRT's (TV's, computer monitors, etc.)  
Explosives or any ordnance (gunpowder, ammunition, unknown cylinders, flares, etc.) - call the Fire Dept.  
Fire extinguishers  
Hypodermic needles - place in puncture proof container (such as liquid detergent container) and dispose of with your regular trash.  
Latex paint – dry out and dispose of with your regular trash.  
Smoke detectors - may be disposed of with your regular trash or mailed to manufacturer.

## Transportation Tips

- ◆ Tighten caps and lids
- ◆ Leave materials in original containers
- ◆ Never put chemicals that may react with each other in the same box when preparing chemicals for transport.
- ◆ Pad boxes with newspaper to minimize spills
- ◆ Drive directly to center
- ◆ NEVER MIX CHEMICALS
- ◆ NEVER SMOKE

## DIRECTIONS from Concord

### 60 Hartwell Ave, Lexington

**Option 1** – Take Rte 62 E to Bedford – Go east on 225/4. Pass the Super Stop & Shop (on right). At 2nd set of lights take a right onto Hartwell Avenue. MRHW facility is about ½ - ¾ miles on the left.

**Option 2** – Take Rte 128 north to exit 31B (225/4). At first set of lights you want to turn left onto Harwell Ave, but to do this you must turn right and drive through the “jug handle” which will allow you to cross traffic and head left. MRHW facility is about ½ - ¾ miles on the left.
